Dubai – India – Lebanon – Egypt – Cyprus – Tunisia

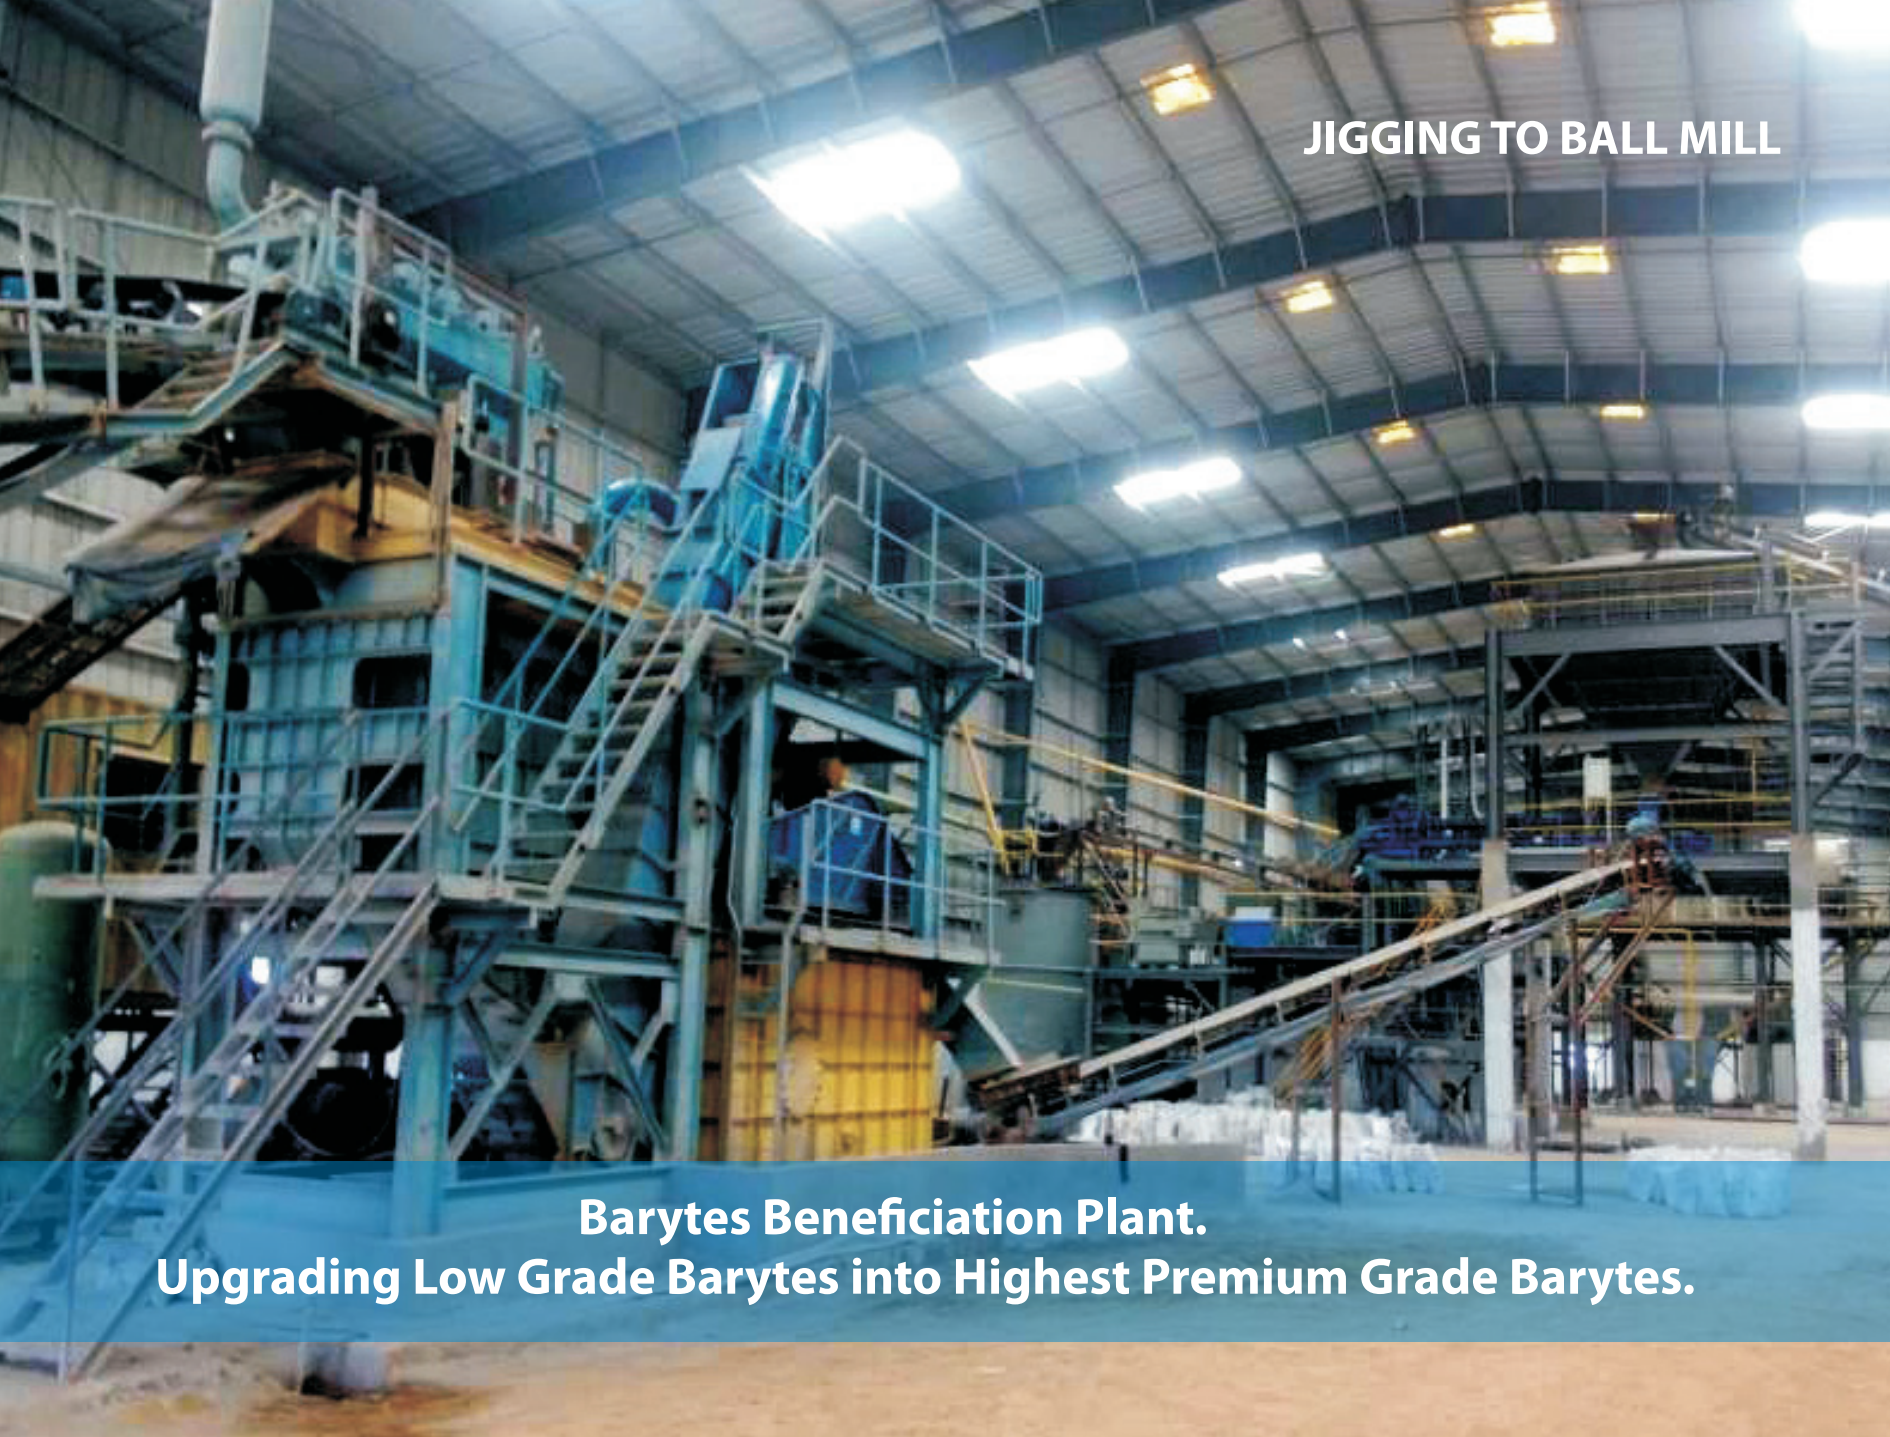

MEPCO's entry into the oil and gas industry started in 2016 with the export of Baryte Ore, Baryte Powder (all grades), Bentonite Ore, and Bentonite Powder .

Baryte and Bentonite are commonly used as additives in drilling fluids. All our supplies to the Gulf Region and North America are sourced from our Indian mines.

**Single Largest Barite Mine in The World 70 Million Tonnes.
Most Preferred Source by All Global Oil and Gas Well Drilling Companies.**

JIGGING TO BALL MILL

**Barytes Beneficiation Plant.
Upgrading Low Grade Barytes into Highest Premium Grade Barytes.**

Barium Chemicals Manufacturing

• Barium Carbonate • Barium Chloride • Barium Sulphate • Sodium Sulphide • Precipitate Barium Sulphate
